## **PREFACE**

**This handbook is designed as a quick field reference to Marine Corps automated data systems as well as to provide references for those systems.**

**The material is divided by functional areas: Aviation, Financial, Logistics, Manpower, Operations, Publications, Shipboard, and Tactical. In addition to system purpose and functions, the system is also classified by status: Implemented (I), Developmental (D), or Conceptual (C). The sponsor of each system is indicated.**

**This handbook is for INFORMATIONAL purposes only.**

AVIATION

ACRONYM & HQM C SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
NALCOMIS ----- DC/S Aviation (Code AAJ)	Naval Aviation Logistics Command Management Information System	Will eventually encompass the entire aviation supply and management processes such as SUADPS-EU, 3M, and FREDs	Will increase aircraft readiness by improving the aircraft carrier's and the Marine Air Group's current management information system; will result in a manpower reduction from current requirements to operate the MIS; will effect a reduction in rotatable pool inventories; will increase systems capability to determine aircraft sorties available.	Marine Corps Aviation Units  Navy Tech Support Activities  Navy Type Commands	Marine Corps Aviation Units  Navy Tech Support Activities  Navy Type Commands	C	OPNAV INST 4790.7  CNOltr SDR 5140/ 4024 of 8 Mar 74
3M ----- DC/S Aviation (Code AAJ) in conjunc- tion with CNO	Navy Mainte- nance and Material Management System	Collects, stores, and retrieves maintenance as well as material and usage data for aviation activities	Aids the commander in producing various aviation management reports such as part failures, work output, aircraft readiness, as well as determining parts requirements	Marine Corps Aviation Units	Marine Corps Aviation Units	I	OPNAV INST 4790.2A
FREDs ----- DC/S Aviation (Code AAJ)	Flight Read- iness Evalu- ation Data System	Collects, analyzes, and evaluates aviation flight data for use in decision making	Will measure the combat readiness percentage; will provide a measure of aircraft use; will maintain flight records of aircrewmembers; will be a means of reviewing training and readiness requirements; will provide and assist with information to perform advance planning tasks	Marine Corps Aviation Units  IFARS	Marine Corps Aviation Units	D	MCO 3762.1 (Proposed)
----- DC/S Aviation (Code AAJ)	FIS Standard Navy Supply System	Reports data on aviation material obtained through the Navy Supply System	Will channel SUADPS-EU information to wing or higher level head- quarters to permit the coord- ination and location of aviation material	HQMC  Wing and Force Aviation Supply	WAGS WMSG SMS	D	FMFLANT/ MC Joint Ltr of Agree- ment: 21A/BK/ IT-11; 4400 of 5Jul73

AVIATION

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
IFARS ----- DC/S Aviation (Code AAZ)	Individual Flight Activity Reporting System	Provides statistical information on aircraft in terms of men and material	Flight information such as number of landings, type of approach, crew members etc., can be extracted for statistical review to aid in such areas as flight safety, budget, or the individual's flight record	Marine Corps Aviation Units	Marine Corps Aviation Units	I	MCO 3760.1 OPNAV INST. 3710.7G
NANFORMS ----- DC/S Aviation (Code AAZ)	Naval Aviator Naval Flight Resource Management System	Stores flight time information on designated naval aviators, naval flight officers, or aviation ground officers/enlisted	Periodically or on demand displays flight time reports on individuals or groups of individuals which assist in pilot transition boards, flight status selection, and related areas	HQMC	RMS and IFARS	I	DC/S Aviation memo AAZ-2- BJW of 30Aug87; Chief of Staff Decision 1-68; User's Guide 1Feb72
SUADPS-EU ----- DC/S Aviation (Code AAJ) in conjunc- tion with NAVSUP- SYSCOM	Shipboard Uniform Auto- mated Data Processing System for End Use	Automates supply and fiscal management for aviation units	Capable of developing inventory information, processing requisi- tions, as well as aiding in fiscal management activities	Marine Corps Aviation Units  DOD Supply Agencies  Navy Fleet Air Commanders	MAGS MWSG MWSH  Marine Corps Combat Readiness Training Group	I	OPNAV 91P3. FAGLNT SUADPS Program Operation Manual  dtd 15Apr72

FINANCIAL

ACRONYM & HOMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
PRIME ----- Fiscal Director (Code FDA)	Project Prime (Priority Management Effort) Mechanized Financial Procedures for Selected Marine Corps Posts and Stations	An automated system providing a means of collecting, processing and submitting financial data and is utilized at selected major Posts and Stations	Provides managers a System which includes monetary and quantitative financial information that enables management to effectively and efficiently manage available resources	HOMC  Marine Corps Posts and Stations Navy Comptroller	Navy and Marine Corps Disbursing Officers  Comptroller Marine Corps Stock Fund Local Fund Adminstrator	I	MCO P7300. 10A
----- Fiscal Director (Code FDA)	Depot Maint- enance and Production Reporting	Records, stores, and reports costs of depot level maintenance	Identifies any work performed in depot maintenance with its related cost; Classifies and reports this information by a specific category, such as an identifiable weapons system	HOMC MCSA Phil  Local Commands	HOMC MCSA Phil  MCSC's	I	MCO 7310.37
ALPS ----- Fiscal Director (Code FDA)	Automated Leave and Pay System	Gives local commands the capability to pay civilians as well as maintaining their Leave records	Pay computations and payroll records are performed by the computer for civilian employees; maintains leave records	Marine Corps Posts and Stations  Navy Compt- roller  Treasury and Civil Serv- ice	Marine Corps Posts and Stations	I	MCO P74203
MAGFARS ----- Comptroller in conjunc- tion with CG FMF Lant	Marine Air- Ground Finan- cial Account- ing and Reporting System	Records, stores, and reports fiscal trans- actions	Provides such data as transaction reports, unfilled orders, and general ledger reports; is a FIS system	HOMC  FMF Units  Local Fund Adminis- trators	Fiscal Officer of using command	I	
FAS/HQ PRIME ----- Fiscal Director (Code FDA)	Financial Accounting System/ Headquarters Priority Management Effort	An automated system providing a means of collecting, processing and submitting financial data and is utilized at thirteen selected major posts and stations	Provides managers a system which includes monetary and quantitative financial information that enables management to effectively and efficiently manage available resources	HOMC  All USMC Commands  Navy Comptroller	HOMC    Navy Comptroller	I	

ACRONYM & HOMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FINANCIAL		OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
			FUNCTION					
----- Fiscal Director (Code FDA)	Class I Allotment Accounting	Automatic allotment accounting in con- junction with Class I Prime	Provides an automated means of accounting and reporting for funds appropriated by other than O&MCC		Marine Corps Posts and Stations	Marine Corps Posts and Stations	D	
DOV ----- Fiscal Director (Code FDD)	Disbursing Officer Voucher System	Mechanize the extraction of disbursing transac- tions to meet subsequent reporting requirements	Provide Marine Corps Disbursing Offices a system for editing accounting, balancing transactions producing NAVCOMPT forms, voucher listings, and expenditure reports		HOMC  Marine Corps Finance Center Fiscal Officers and Disbursing Officers	Marine Corps Disbursing Offices	I	MCO 7240.30
JUMPS (JUMPS/MMS) ----- Fiscal Director  (Code FDD) and DC/S for Manpower (Code MPI)	Joint Uniform Military Pay System/Man- power Manage- ment System	To administer and co- ordinate the DOD policies and objectives for the development, test, evaluation, and maintenance of JUMPS	An integrated personnel and pay system, JUMPS/MMS utilizes reports of personnel changes, entered into the system by unit diaries, to change the pay data automatically. Pay data changes are entered into the system by Unit Diaries, docu- ments prepared by the disbursing officer or both		All command levels with reporting unit cap- ability  HOMC Marine Corps Finance Center	Marine Corps Disbursing Officers, Commanding Officers at the Report- ing Unit Level, HOMC Administrative Control Units at the SDPI's, Recruit Depots and the Marine Corps. Finance Center	I	MCO P7220.31
----- Fiscal Director (Code FDA)	Retired Pay/ Personnel System	To provide for the pay- ment of retired pay, re- tainer pay, and annu- ities for survivors of deceased Marine Corps members and Fleet Marine Corps Reservists.	This system provides: a record for each retired member, Fleet Marine Corps Reservist, and annuitant whenever a change occurs in an account; monthly checks for the listed categories of personnel; numerous reports to include accumulated taxable income and federal tax withheld for issuance of W-2's and W-2P's; and microfiche listing of the monthly retired pay account		HOMC  DOD  General Accounting Office	HOMC, Veterans Administra- tion; Social Security Ad- ministration; Field Commands	I	NONE

ACRONYM & HOMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FINANCIAL		OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
			FUNCTION					
PMC ----- Fiscal Director (Code FDA)	Procurement Marine Corps	Produces accounting ledgers for the PMC appropriation and produces reports by procurement line number and subhead	A mechanized financial system for HOMC which provides for the record- ing, accumulation, reporting and administrative control of funds for the PMC appropriation		HOMC  Navy Comptroller	HOMC	I	HOO 7043.3
MCIF ----- Fiscal Director (Code FDA)	Marine Corps Industrial Fund	Provides a means of financing, budgeting, and billing for work performed by the Industrial fund	The MCIF is a mechanized account- ing system designed to meet DOD, DON, HOMC, and activity level requirements peculiar to Industrial fund accounting require- ments		HOMC  MCSC, Albany  MCSC, Barstow	MCSC, Albany  MCSC, Barstow	I	MCO 7600.1A NAVCOMPT INST 7300.92
CERPS ----- Fiscal Director (Code FDA)	Navy Register System/ Centralized Expenditure Reimbursement Processing System (CERPS)	To provide various administrative/responsi- ble offices and account- able activities with financial data	The system accumulates, selects, and reports accounting data pert- aining to disbursements, reimbursements for all Marine Corps disbursing offices, stock fund issues, and international balance of payments		NAVCOMPT  HOMC  Various administrat- ive and responsible offices and accountable activities	Marine Corps Disbursing Offices	I	
CAREPAY ----- Fiscal Director (Code FDD)	Centralized Automated Pay System	Pays Marine Corps Reservists	Accomplishes all payments to reservists for drill attendance performance by check on a monthly basis. Effects payments for AFD periods by checks at the training location on the 1st and 2nd Friday of the training period, prepares supporting documents, and furnishes appropriation accounting data to HOMC on a monthly basis.		HOMC  CG, 4th Mar Div  CG, 4th MAW/ MARTC  Directors of Marine Corps Districts  Reserve Units  Social Security Administration  Internal Revenue Service	Marine Corps Reserve Units  Inspector- Instructor Staffs	I	MCO 7220.R 170

FINANCIAL

ACRONYM & HQM C SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
B&A ----- Fiscal Director of  (Code FDD)	Bonds and Allotment System	Provides for the Payment of all allotments of military pay and allow- ances and provides for U.S. Savings Bond iss- uance and safekeeping services.	Provides for the control and up- dating of the master allotment file on all active allotments and allotment stop history and provides for the issuance, cancellation of treasury checks and savings bonds authorized by appropriate directives	U.S. Marine Corps  Navy Compt- roller  Treasury Department  All allot- ment re- cipients	All M.C. Dis- bursing Officer, officer. numerous Navy Disbursing Officers  May receive information from other services  all re- cipients of allotment payments	I	MCO P7220 P7220. 31A

LOGISTICS

ACRONYM & HQM SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
PMRMS ----- DC/S Instal- lations and Logistics (Code LPC)	Prepositioned War Reserve Management System	Will assist the command- er in computing his requirements for war reserve material; will also analyze and indic- ate Pre-D Day require- ments (Revision of a MUMMS subsystem)	Will permit the insertion of staff studies into this system while a program of war reserve material requirements is being maintained or determined; will further aid the commander with its computer to computer communication capability in the rapid analysis and dissem- ination of these requirements; will also be of benefit to the Marine Corps Reserve in the event of mobilization	HQMC FMF Hdqs ICP Phil	HQMC FMF Hdqs ICP Phil	C	
SASSY ----- DC/S Instal- lations and Logistics (Code LPS)	Supported Activities Supply System	Functions as supply management for the direct support echelon of the Marine Corps Supply System in the FMF	Accomplishes the supply accounting functions for the Service Support unit and commanders at the direct support echelons which includes FMF MAG's, Battalions, separate companies. Determines require- ments, controls material, provides asset visibility and furnished a data base for manage- ment information required by the Commander in the performance of his missions	HQMC All FMF  Units General Support level of Marine Corps Supply Integrated Material Manager	All FMF Units General Sup- port Level of Marine Corps Supply Integrated Material Manager	I	MCO P4400.123 MCO P4400.123 MCO P4400.124 MCO P4400.126
MUMMS ----- DC/S Instal- lations and Logistics (Code LPS)	Marine Corps Unified Material Management System	Acts as a supply manage- ment system with respect to obtaining and dispos- ing of material as well as indicating the availability of material	Handles such areas as inventory control, procurement, warehousing, war reserve material; responsible for operation of direct support control point; accounts for the storage of all Marine Corps material not in the hands of the using unit	HQMC  Supply Activities  FMF Units and Support- ing Estab- lishments	HQMC MCSA Phil RSA DSSC DLSC DSA Requisitioning Activities	D	MCO 4400.70
MEOS ----- DC/S Plans and Opera- tions (Code POM)	Mechanized Embarkation Data System	Automates the clerical tasks associated with embarkation	Assists in embarkation through the production of various rosters and documents	Using FMF Units	Using FMF Units	I	MCO P3120.6

LOGISTICS

ACRONYM & HQM Sponsor	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
MIMMS ----- DC/S Instal- lations and Logistics (Code LPS)	Marine Corps Integrated Maintenance Management System	Will create an equip- ment maintenance manage- ment system for ground units of the regular establishment as well as for aviation and ground units of the Marine Corps Reserve	Will provide maintenance manage- ment and readiness information for the management of ground equipment in Marine Corps Units at both field and Headquarters levels	HQMC  Support Supply Activities All Marine Corps Units	HQMC  Support Supply Activities All Marine Corps Units	D	MCO P4790.1 MCO P4790.2 MCO P4790.3 MCO P4790.6 MCO P4790.1
RESCU ----- Dir, Information Systems, Support & Management Division (Code ISMR)	Marine Corps Automatic Data Processing Resource Cost and Utilization System	Provides information on utilization of ADP resources	Currently provides ADPE utilization information to meet requirements of Department of Navy ADP Programs Reporting System (ADPPRS). Revised system (Resource Control System) will provide use report- ing on all ADP resources as well as provide a standard project Control System.	Marine Corps ADP Units HQMC DON DOD GSA	Marine Corps ADP Units HQMC	I	CMC Ltr AP/9- dis-r 5230/1-3 of 14Feb73
MAGTF LIFT ----- DC/S Instal- lations & Logistics (Code LPS)	Marine Air Ground Task Force Require- ment and Logistic Plan- ning Model	Will automate lift requirements for base- line and notional MAGTF's, determine logistic planning fac- tors, and create data for use in the Joint Oper- ational Planning System	Will give a logistical profile with respect to weight and cube, person- nel, and transportation for a MAGTF; is a mathematical model	JCS HQMC MCDEC FMF Hqs	HQMC	I	

MANPOWER							
ACRONYM & HOMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I O C	REFERENCE
ARDP ----- DC/S Manpower (Code MMEA)	Automated Recruit Distribution Process	Provides an objective means of assigning recruits to entry level training after the completion of recruit training	Determines quotas, number of anticipated graduates, recruit distribution plan, and also provides personal recruit informa- tion	HOMC MCRD's	HOMC MCRD's	I	Draft MCO 1100.1
GAR ----- DC/S Manpower Code MPC)	Grade Adjusted Recapitulation	Designed to illustrate future needs of the Marine Corps grade, MOS, billets, and individuals	Functions as a mathematical model- ing process to predict these requirements as limited by such factors as end strength, training requirements, manning levels, and grade levels	HOMC	HOMC	I	
REMMPS ----- Division of Reserve (Code RESM) and Fiscal Director (Code FDD)	Reserve Man- power Manage- ment and Pay System	Establishes a person- nel and pay system for the Marine Corps Reserve and provides interface with JUMPS/ MMS upon mobilization	Will provide manpower management information with respect to Reservists; will have the capabili- ty to issue pay to the reservists	HOMC DDD CG, 4thMarDiv CG, 4th MAM MARTC DistDir MCFC MCRFAA USMCR-(O)- Units	MCRFAA 1-1/WARTD(U) Staffs USMCR-(O)- Units	D	
----- DC/S Manpower (Code MTMT)	Unit Level Training Management	Will be an inquiry system to automate an individual's train- ing record	Could answer questions relating to individual qualifications or skills	All Marine Corps Units	All Marine Corps Units	C	MCO 1510.2H Par. 2d.(2)
----- DC/S Manpower (Code MPI)	Recruit Reservation System	Will provide recruiting officers with the capability to schedule enlistees for special- ized training at the time of enlistment	Will give the recruiting officer the capability to offer enlist- ment options to a prospective Marine with respect to obtaining specialized training after recruit training; will also help minimize classroom vacancies at special- ized schools	HOMC Recruiters Technical Schools	HOMC Recruiters	C	

MANPOWER

ACRONYM & HQM SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
CAMS ----- DC/S Manpower (Code MPI)	Commissioning Accession Management System	Exists as an entry system into JUMPS/MMS for the initial com- missioning of officers at MCDEC as well as for Reserve officers return- ing to active duty	Enters personal data about the newly commissioned officer into JUMPS/MMS; also enters data about officers who come on active duty in excess of 30 days duty as well as making administrative status changes such as occur in integrat- ing from Reserve to Regular officer	HQMC	HQMC MCDEC	I	MC Bul 1080 of 8Aug73
HAMS ----- DC/S Manpower (Code MPI)	Headquarters Accession Management System	Exists as an entry system at HQMC into JUMPS/MMS for enlisted personnel with broken time or for reservists returning to active duty	Enters personnel data about the re- enlistee with broken time from the newly executed enlistment contract; also inputs the personnel data for an enlisted reservist entering active duty for a period in excess of 30 days	HQMC	HQMC Recruiter	I	MCO P1080. 358
AIMS ----- DC/S Manpower (Code MPI) System	Administrative Instructions for Manpower Management	Permits the monitor at HQMC to enter certain data elements into the JUMPS/MMS system	Is the means by which a monitor at HQMC enters data such as promotion, schools, or assignments into the individual's JUMPS/MMS file	HQMC	HQMC	I	HQMC Order P1080.1
TMR ----- DC/S Manpower (Code MPC)	Table of Manpower Requirements	Automates the production of T/O's	Produces Tables of Organization as well as updating existing T/O's on a monthly basis	HQMC  All Marine Corps Units	HQMC  All Marine Corps Units	I	MCO P5310.6A
GENTRAS ----- DC/S Manpower (Code MTMT)	General Training System	Operates as a quality control measure for formal Marine Corps School	Determines specific skills require- ments for a billet and then provides guidance to formal schools in the formulation of objectives to meet these skill requirements; evaluates the effectiveness of training as it relates to the identified skill requirement	HQMC	Formal Schools  Field units on request	I	

MANPOWER

ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
MMS (JUMPS/ MMS) ----- DC/S Manpower (Code MPI)	Joint Uniform Military Pay System/Man- power Management System	Exists as major sub- system of the Man- power Management Information System is comprised of each regular Marine's com- plete personal and pay record as well as leave date	Provides manpower management reports; permits local commanders having access to an Automated Services Center (ASC) to extract manpower information; enhances the creation of a summary file from which HQMC can retrieve certain items of personnel data	HQMC	A-1 Marine Corps Units	I	MCO P7220. 31 MCBuJ 7220 Series
GIMMIS ----- DC/S Manpower (Code MPI)	G-1 Manpower Management Information System, Modes, and Processes	Operates in a retrieval or inference vein to provide or predict manpower requirements; exists as a major sub- system of the Manpower Management Information System	Contains several mathematical models which perform the following functions:  Recommends optimum assignment to unaccompanied overseas tours by name, skill, grade, and deployability; matches enlistments with manpower requirements Predicts Marine Corps enlisted population by grade and MOS; Determines and evaluates end strengths; Tests unrestricted officer promotion policies against various limiting factors; Forecasts a desired grade/ MOS composition for a specific future time period	HQMC	HQMC	I	
RAMS ----- DC/S Manpower (Code MPI)	Recruit Accession Management System	Exists as an entry system into JUMPS/MMS for recruits at the MCRD's	Enters personal data about the enlisted Marine into JUMPS/MMS; permits each recruit to verify the information prior to entry into the system	HQMC	MCRD's	I	MCO 1070.9A
REPMS ----- Dir. MC Reserve (Code RESM)	Reserve Per- sonnel Man- agement Infor- mation System	Exists to provide the the Marine Corps Reserve with a means of account- ing for Reservists while they are in an inactive Status	Provides Marine Corps Reserve man- power management information and provides personnel data to the mobilization subsystem	DOD, HQMC, MCRFAA, CG 4th Mar Div CG 4th MAM/ MARTC, District Directors, MCRFAA, USMCR-(O)- Units	MCRFAA I-1/MARTD(U) Staffs USMCR-(O)- Units	I	MCO P1080. 20 MCO P1080. 35

OPERATIONS

ACRONYM & HOMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
FORSTAT ----- DC/S Plans and Operations (Code POC)	Marine Automated Readiness Evaluation System/Force Status and Identity Report	Automates the unit's reporting of its operational readiness	Reflects the state of readiness for each Marine unit with respect to personnel, equipment and training	HAMC, JCS, MAF, DOD, FMF, Hdqs., CINCS, Marine Corps Reserve, Divisions and Wings, FSR, Force Troops MARBDE	FMF Units USMC Units HOMC Non-FMF Units outside of CONUS	I	JCS Pub 8
JOPS DC/S Plans and Operations (code POM)	Joint Operations Planning System	Provides automated sup- port in the development of joint operation plans	Through simulation will test the plan's feasibility and then provide an evaluation; will deal with such considerations as material, person- nel and movement requirements, the status of lift forces and mobility of support, physical character- istics of equipment as well as air and sea lift planning factors	HOMC  CINCS  FMF Planners  JCS	FMF Planners	D	

PUBLICATIONS						
ACRONYM & HOMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C REFERENCE
PUBS ----- Director of Headquarters  Support (Code HQSP)	Publications	Automates the supply and accounting for Marine Corps Pub- lications	A means by which Marine Corps Pub- lications are distributed to various sources: will also account for the publications	All Marine Corps Units	All Marine Corps Units	I  MCO P4400. 84 P5600. 31C

SHIPBOARD							
ACRONYM & HQM C SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
ASIS ----- DC/S Plans and Operations (Code POM)	Amphibious Support Information System	Act: as an information retrieval system for the CATF/CLF	Provides data such as target list information, personnel information as well as other similar data necessary for the Landing Force Commander during an Amphibious Landing	Embarked CATF/CLF Staffs	LMF Units Involved in the operation	I	

TACTICAL							
ACRONYM & HQMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE
PLRS ----- DC/S Plans and Operations  (Code POM)	Position Location Reporting System	Will be a means for providing the commander with precise locations of friendly forces	Will provide position location information from PLRS equipped ground and air units to Landing Force Commanders for use in fire support, control and coordination. Will provide individual tactical user with his own position for use in navigation and conflict avoidance. Will provide a digital data link between user and command level.	FMF Units	FMF Units	D	
TWAES ----- DC/S Plans and Operations (Code POM)	Tactical Warefare Analysis and Evaluation System	Will assist in the operation of tactical exercises	Will be a computer assisted system for the design, conduct, control, and evaluation of FMF tactical exercises and tests	FMF Units	FMF Units	D	
MAQ15 ----- Dir of Intelligence (Code INTM)	Marine Air Ground Intelligence System	Will assist the Com- manders by providing more timely and accurate intelligence	Will assist in: processing and interperations of aerial imagery; processing and evaluation of electronic warfare support measures (ESM) data; managing and collection of information; processing information into finished intelligence and dissemination of intelligence to users.	FMF Units	FMF Units other Intelligence Units	D	
SIAS ----- Dir of Intelligence (Code INTS)	Signal Intel- ligence Analysis System	Assist the FMF commander by providing more timely and accurate intel- ligence	Will provide FMF units with comp- uter assistance in Signal Intel- ligence analysis functions	FMF Units	FMF Units	D	
TCO ----- D/CS Plans and Operations (Code POM)	Tactical Combat Operations	Will enhance the capability of the commander and his staff to plan and conduct fire and maneuver	Will give the commander the capability to analyze large amounts of data for advance planning; will draw upon updated information from other aspects of MTACCS to permit the Commander immediate access to current infor- mation in a centralized combat operations center.	FMF Units	FMF Units	C	

TACTICAL								
ACRONYM & HOMC SPONSOR	DESCRIPTIVE TITLE	PURPOSE	FUNCTION	OUTPUT TO	INPUT FROM	STATUS I D C	REFERENCE	
MIFASS ----- DC/S Plans and Operations  (Code POM)	Marine Integrated Fire and Air Support System	Will assist in the control of supporting arms	Will provide integrated control and coordination of the MAF's fire support, both ground and air; will include organic weapons, Naval Gunfire, Artillery, close air support, and the REDEYE; will provide accurate target information reduce reaction time, and allow greater efficiency in reaction time as well as allocating fire to targets	FMF Units	FMF Units	C		
MACCS BS ----- DC/S Aviation (Code AAJ)	Marine Air Command and Control System-BS	Will assist in the command and control of Marine aviation	Will evolve from the current MACCS into a semi-automated center or or system of centers to provide the commander with the means to achieve the control of aircraft in conduct- ing offensive or defensive operations	FMF Units	FMF Units	C		
MIPS ----- DC/S Manpower (Code MPI)	Marine Integrated Personnel System	Will fulfill the need to provide personnel information of a MAGTF	Will provide personnel information such as skill shortages and requirements, both present and future; will help in determining anticipated losses and probable future capabilities and effect- iveness; will supplement MMS	FMF Units	FMF Units	C		
MILOGS ----- DC/S Installations and Logistics (Code LPC)	Marine Integrated Logistics System	Will assist combat service support units and MAGTF's G/S 4's with respect to command and control	Is anticipated that MILOGS will be the tactical arm of MUMMS, MIMMS, and SASSY	FMF Units	FMF Units	C		
TESE ----- DC/S Manpower (Code MPI)	Tactical Exercise Simulator and Evaluator	Will assist in the simulation of tactical problems for formal school programs	Will be a computer assisted educational war game to be used for the education and evaluation of ground combat commanders and staffs	Students	Students	C
